City of Rockford Illinois Police Department
420 West State Street
Rockford, IL 61101
Attn: Deputy Chief of Support Services

Dear Deputy Chief of Support Services:

The Federal Communications Commission ("FCC") has directed the City of Rockford Illinois Police Department ("Licensee") to obtain the concurrence of the TA as part of the request of the Licensee for approval of an application for a regular authorization to operate on new fixed NPSPAC frequencies within the 806 to 809 and 851 to 854 MHz ranges, as detailed in FCC Application File # 0003745006.

This letter of concurrence pertains only to the TA concurrence requested by the FCC in its letter to the Licensee and is not intended to address any other issues that may have been raised by the FCC regarding the application. Based on our review of the facts and the concurrence by the Regional Planning Committee accompanying your application, the TA concurs with the issuance of this authorization and does not foresee any impact on 800 MHz Band Reconfiguration resulting from the grant of the application.

In conducting its review and issuing this concurrence, the TA has not engaged in any frequency coordination with respect to this license. TA concurrence does not change the requirements that the Licensee comply with all Regional Planning Committee requirements for the NPSPAC region.

Please note that in approving the use of these frequencies, the TA makes no determination as to whether Sprint Nextel has any obligation to pay for any reconfiguration of the 800 MHz system associated with this call sign or, if such payment is made, whether it may be credited toward the commitments of Sprint Nextel.

Should you have any questions regarding this matter, please do not hesitate to contact The Contact Center at 888-800-8220.

Additional information regarding the 800 MHz reconfiguration process can be found at www.800TA.org.

Sincerely,

Brett Haan
800 MHz Transition Administrator

c: Sprint Nextel (Robin Cohen)

About the 800 MHz Transition Administrator, LLC

800 MHz Transition Administrator, LLC ("TA LLC") is the Transition Administrator ("TA") for the reconfiguration of the 800 MHz band mandated by the Federal Communications Commission ("FCC"). TA LLC has contracted with BearingPoint, Inc., Squire, Sanders & Dempsey L.L.P. and Baseline Telecom, Inc. to perform the duties of the TA. Among its duties, the TA establishes reconfiguration guidelines, specifies replacement channels, reviews reconfiguration cost estimates, monitors payment of reconfiguration costs, manages the relocation schedule, facilitates issue resolution and administers the alternate dispute resolution process. TA LLC uses information it receives solely for the purposes of administering the 800 MHz reconfiguration process and may disclose such information to the FCC or other authorized parties pursuant to the requirements of the 800 MHz Order or other applicable laws.
